

# Courses

Our core group of tutors are all highly experienced, with impressive qualifications that include Masters Degrees and Phd's. They have all been selected to offer the best possible value and support to the students that they work with. All of our tutors are DBS checked and Safeguarding approved.

*Using the atmosphere and surroundings of the stables, and horses in particular as the subject, we offer the following creative classes...*

## Painting

Presenting various styles and techniques based on what appeals to the individual groups. Working on paper, canvas and other media.

## Ceramics

The tactile nature of moulding the clay has the same therapeutic benefits as holding a stress ball for an hour. The creation of an object helps the student to focus, improve hand to eye coordination, and receive a sense of self worth and achievement once completed.

## Drawing and Sketching

Encouraging students to forget pre-determined notions of drawing and instead learn to express themselves freely, to unlock the potential of creative expression while finding individual styles in the process.

## Acrylic Painting

Painting onto silks and other materials. Creating a whole range of finished products: Such as scarfs, mandalas, paintings with bamboo frames, lamp shades, decorative tops and other items of clothing. All very rewarding, producing unique creations.

## Hobby Craft

Involving a whole range of easy to master hobby crafts. Hands on fun with something unique and personal at the end to show for it.

## Basic Photography

Initially using disposable cameras, we will explore the idea of beauty being in the eye of the beholder and how one object can look dramatically different depending on how it is captured. A 'selfie-free' zone! Encouraging the use of different angles and close-ups. A great introduction to the world of photography.
